

CASE STUDY 20

Client: SBS
End User: EON
Project: Blackburn Meadows Sheffield
Products: Plate Heat Exchangers
Date: July 2015

Project Description

Arbe have supplied, as part of an ongoing contract, a number of gasket type plate heat exchangers for the Blackburn Meadows project in Sheffield, operated by EON.

Each plate heat exchanger was designed and manufactured in accordance with the Pressure Equipment Directive and were CE marked, and supplied with all necessary certification and documentation. The units were designed for a maximum temperature of 16 BarG and a maximum working temperature of 150 DegC

The sites supplied were:

- Sheffield Forgemasters
- ICE Sheffield
- Sheffield Arena
- Sheffield Institute of Sport
- Oasis Academy, Sheffield

All heat exchangers were supplied with insulation cases
